B.Tech ECE - PROJECT (0:0:8)

[Course Code: 23EC2998]

Register No.URK23EC3004	Name: Sanjay S
Register No.URK23EC6036	Name: Thejandra V
Register No.ULK23EC3001	Name: Sarukesh S
Register No.UTK23EC1001	Name: Pranov Raghavendhra MD

Semester: 8	**Course Code:**	**2**	**2**	**E**	**C**	**2**	**9**	**9**	**8**

Duration of the Project (90 days): From: **To:**

Title of the Project: Design and Fabrication of Nano generator

Problem Statement: To design and fabricate a compact, cost-effective Piezoelectric Nanogenerator (PENG) that harvests mechanical energy from daily activities and converts it into electrical energy to power low-power electronic devices and sensors.

Objective of the project: To design and fabricate a Piezoelectric Nanogenerator (PENG) that converts mechanical energy into electrical energy, measure and analyse its electrical parameters and perform material characterization, and evaluate its suitability for low-power applications.

Name of the Guide: Dr. D.Nirmal

Signature of the Guide:

Approved
